PLUS

First Aid Emergency Blanket

The Care Plus® Emergency Blanket protects against cold and heat. It can be used in the event of accidents, fire, and heavy weather. When the silver side is facing inward, the aluminum reflects back around 80% of the body temperature, preventing hypothermia and freezing. When the silver side is facing outside, the blanket acts as a sun shield, keeping the body, car, or tent cool.

IN SHORT

- For use in the event of accidents, fire, and heavy weather
- Usable on two sides (gold/silver)
- Gold on the outside: provides protection against cold
- Silver on the outside: provides protection against heat
