

CARE Sun Care & Repair PLUS[®] After Sun Lotion

Care Plus[®] Sun Care & Repair After Sun cares for, soothes, and repairs the skin after sun exposure. Thanks to vitamin B and natural ingredients such as Aloe Vera and Bisabolol, the After Sun lotion has a calming effect.

Additionally, soybean oil helps slow down skin aging, and menthol provides a cooling effect. The After Sun lotion also helps to reduce skin redness.

It is wise to use After Sun even if the skin is not sunburned. Because sun exposure causes the skin to become extra dry due to UV rays that damage the skin. As a result, moisture regulation is significantly reduced. Using After Sun lotion helps to restore the moisture balance and replenishes the skin with antioxidants. This ensures the skin is well cared for, allowing you to enjoy sunny days to the fullest.

Sunlight stimulates blood circulation and plays an important role in the synthesis of vitamin D, which the body needs for calcium production for the bones. Furthermore, sunlight contributes to our well-being and vitality. Care Plus[®] offers a product line that allows you to enjoy the sun worry-free, also offering products with an SPF.

BENEFITS

- Helps reduce skin redness
- Helps restore the moisture balance of the skin
- Suitable for normal and sensitive skin, as well as for children
- Contains vitamin and natural ingredients
- Nourishes and soothes the skin
- Tube is made of bioplastic (recycled)
- Perfume does not contain allergens
