

A holiday to a faraway destination is not without risk. Infectious diseases are extremely prevalent in tropical and subtropical regions. Vaccinations protect us against most, but not all infectious diseases. Good personal hygiene is your best defence against bacteria! The products offered by Care Plus® will help you maintain optimum hygiene at all times. Our hygiene products are convenient, lightweight, and optimally tailored to the needs and desires of travellers.

Opt for the compact quality of the Travel Towel Microfiber from Care Plus®. This ultra light travel towel was specially designed from revolutionary microfibers, which allows it to absorb seven times its own weight. It's as efficient as it is soft! Compact and lightweight, the travel towel is easy to take along. It comes packaged in a breathable bag and is available in three different sizes.

### IN SHORT

- Made from revolutionary microfiber
- Absorbs more than 7 times its own weight
- With one extra soft side for optimum comfort
- Packaged in breathable bag
- Available in three sizes and three colors
- Compact and lightweight
