Insect SOS Gel

Care Plus® Bio Insect SOS Gel has a nurturing and soothing effect when used after an insect bite or sting, such as that of a mosquito, wasp or horse fly. This small tube with handy cooling roller also has a soothing effect after contact with the stinging hairs of the processionary caterpillar or a jellyfish bite. Apply a thin layer on and around the bite spot. Repeat if necessary. Suitable for children from 3 years of age.

Care Plus® Bio Insect SOS Gel is intended for external use. Avoid contact with eyes, mouth, open wounds and mucous membranes. Keep out of reach of children. Do not use in case of allergy to one of the ingredients. Consult a doctor if the symptoms of the bite or sting persist or get worse. Contains Menthol.
