

CARE PLUS[®] Oral Rehydration Salt Immune Support

Restore and strengthen your immune system with our new Care Plus[®] Oral Rehydration Salt with Vitamin C. The addition of Vitamin C helps support the immune system. Perfect for restoring your fluid balance after flu or intense physical activity.

Dehydration often occurs during and after physical exertion (sports), especially at high temperatures. Excessive sweating, vomiting, diarrhea, fever, burns, or the use of certain medications can also lead to symptoms of dehydration.

Stay alert and make sure you always have O.R.S. within reach. A combination of the right amounts of salts and glucose enhances the absorption of water during physical activity or when your body's fluid balance is disrupted.

IN SHORT

- Dietary supplement with Vitamin C and minerals (Sodium, Potassium, and Chloride).
- Specially developed to help prevent dehydration during flu or intense physical activity.
- Vitamin C supports the immune system.
- Available in a delicious, refreshing lemon flavor.
- Aspartame-free.
- Sachets are individually packaged.
- Lactose- and gluten-free.
- Suitable for vegetarians and vegans.
